

BELLA FIGURA

Herschel Wall Light

WL805

Collection Name
VEGA COLLECTION

"The stars are the land-marks of the universe" - Sir John Frederick William Herschel
The Herschel series pays homage to British astronomer, Sir William Herschel who is credited with the discovery of Uranus and its two moons during his many studies of the heavens. This sleek triple pendant is beautifully complemented by its wall light counterpart; the parred back detailing of this series lets the effortless charm of the alabaster shades do all the talking.
