## Magnetar Chandelier

**CL807**

Collection Name  
**VEGA COLLECTION**

Vega's most daring design, the Magnetar ceiling light is the consequence of the discovery of a neutron star of the same name, a star which possess' powerful magnetic fields. The hand moulded glass fins visually represent the pulsating radio bursts emitted by this star. Unlike anything Bella Figura has ever created, this sculptural light conceals an integrated LED light source which emanates an ethereal glow from within.
