Moonlight Table Lamp

TL208

Collection Name

MOONLIGHT COLLECTION

This monumental glass statue is adorned with a stylistic impression of the Moon's pitted surface. Whilst projecting a semblance of serenity and weightlessness, the Moonlight table lamp remains monolithic in stature and substance; 12kg of solid glass keeps this chic sculpture firmly grounded. Much like its wall light counterpart, the sculpted glass within this design is transformed by the introduction of light; as rays of light tumble down illuminating the patterned surface, the magnificence of its form is revealed.
