## Moonlight Wall Light

**WL208**

Collection Name

**MOONLIGHT COLLECTION**

The Moonlight wall light's glass facet is imprinted with features which resemble craters of the Moon's surface. Soft beams of light emanate from beneath the glass print, hitting the relief of the pattern and mimicking the chiaroscuro stillness of the Moon. Built-in LEDs are concealed within a sleek, minimalistic compartment with magnetic fastenings which are invisible from the outside, making sure nothing distracts the eye from the beauty of the shadows.
