

# BELLA FIGURA

THE WORLD'S MOST BEAUTIFUL LIGHTING

# 2018 CATALOGUE

At Bella Figura we are passionate about product development and we introduce more new designs every year than any other luxury lighting company. Our new catalogue for 2018 includes all our latest designs and a selection of our most popular products.

This year we have also introduced a revolutionary new service, which aims to make life easier for our clients, offering a solution to often demanding lead times and stressful deadlines. Our new EXPRESS service includes a wide selection of our most popular table lamps, wall lights and lamp shades, which we can despatch from our warehouse in between 3-5 working days. Most of these products are available in a large variety of colours and different finishes. Our co-ordinating shades are available in any of our standard shapes, sizes, linings and a choice of 280 silk colours. This means that we can now offer a bespoke shade service in a week, which is a world first in the lighting industry. Over the course of 2018 we are also planning to add a selection of our most popular ceiling lights into this service.

To view all the products included in the EXPRESS service and our entire product range, please visit our website at [www.bella-figura.com](http://www.bella-figura.com) where you will also be able to view our new product launches as they become available every month.

# BELLA FIGURA

We are one of the world's leading decorative lighting companies. We specialise in working with interior designers, decorators, architects, luxury hotels, property developers and yacht builders.

We have an extensive product range and our designs cover the entire style spectrum from retro to transitional – through to modern and ultra-contemporary. Our products are all made out of the very highest quality materials and they are produced to our design and specification by artisans in England and Italy.

In London, we are based at the Chelsea Harbour Design Centre where we have both a trade showroom and our head office. In North America we have a sales team in Houston, which is responsible for selling either direct to designers or through showrooms in the major Design Centres. In the rest of the world we supply customers directly from London. We do not use agents or distributors, as our dedicated export sales team can offer a much better and faster service to our overseas customers by dealing with their requirements directly from London.

We are – and would like to remain – one of the world's hidden luxury brands – known only to the most discerning.

# TABLE LAMPS

Our Table Lamp collection includes a wide selection of products made out of Murano Glass, Lucite, Wood, Resin and Stone. Starting with our iconic Diamond Table Lamps, which are hand-made for us by one of the very finest and most famous Murano glass makers, we offer a wide range of styles from transitional through to ultra-contemporary. Many of these designs are now made in England as part of our long-term programme of developing British artisans.

# CEILING LAMPS

We have a very wide selection of Ceiling Lights in various styles, which range from beautiful transitional Murano Glass chandeliers to Florentine metal and crystal chandeliers, through to more modern and very contemporary designs. Of particular note is that the glass for all our chandeliers and ceiling lights is made in Venice, which we use because it is simply the finest in the world. Similarly, all our elegant Lucite chandeliers and ceiling lights are hand-made in England out of cast Lucite, with brass or steel frames in a range of contemporary finishes.
