THE WORLD'S MOST BEAUTIFUL LIGHTING

THE
Canterbury
COLLECTION

The Canterbury Collection takes us on a journey back to the roots of British style and design, drawing from the wealth of craftsmanship found throughout the British Isles.

Inspired by the rich history of our heritage, land and literature, each and every one of these lovingly handmade pieces will bring charm to any room setting from the Glens of the Scottish Highlands to the skyscrapers of Singapore; from Fifth Avenue to the banks of the River Thames.

BELLA FIGURA

Founded in 1982, we are now one of the world's leading decorative lighting companies. We specialise in working with the world's leading interior designers, architects, luxury hotels, property developers, yacht builders and their wealthy private clients.

We have an extensive product range and our designs cover the entire style spectrum from retro to transitional - through to modern and ultra-contemporary. Our products are all made out of the very highest quality materials and they are produced to our design and specification by small family businesses in England and Italy.

In London, we are based at the Chelsea Harbour Design Centre where we have both a trade showroom and our head office. In North America, we have a sales team in Houston, which is responsible for selling either direct to designers or through a small number of showrooms in the major Design Centres. In the rest of the world we supply customers directly from London through our dedicated export sales team who offer an unparalleled customer service.

We are – and would like to remain – one of the world's hidden luxury brands – known only to the most discerning.

Think of Autumn in Great Britain and you are sure to conjure up images of misty mornings, fallen leaves and of course, acorns dropping from oak trees. This Autumnal treasure will find space almost anywhere in the home.

RILLE LAMP

Our ever popular Sorrento glass lamp has a new lease of life in our new Rille table lamp; a versatile ceramic reincarnation of its much loved predecessor. Rille draws its name from the channels found scored into the moon's surface and the exaggerated furrows on this lamp allow the four new glazes to play on the surface and deliver an enchanting contrast between light and dark.

LILIUM LAMP

A nod to nature with this new ceramic creation. The inspiration for the Lilium lamp lies among the undulating seed pods of the members of the Lilium flower genus. A curious and eccentric character this table lamp is sure to capture your attention with its flamboyant shape cloaked in an understated off-white, matte glaze. Best suited to the purity of our new Alabaster glaze, we only offer this lamp in this one, stand-out finish.

CONSTANTIN

"Simplicity is complexity resolved" – Constantin Brancusi

The Constantin collection draws its likeness from the series of sculptures by modernist pioneer Constantin Brancusi entitled 'Endless Column'. Our adaptation of his work has been hand carved by one of our UK artisans and painted individually by hand and brush. The Constantin range projects contrasting auras of strength and elegance.

HEDRON LAMP

A geometric figure with a specified number of surfaces – the Hedron table lamp is surrounded in satisfying symmetry, which has been expertly sculpted from a perfectly formed digital model and cast into this small but mighty form. The Hedron table lamp has a substantial weight and can be finished in Russet – an oxidized, rusted finish – or Sepia – our richly layered and hand painted finish which mimics aged bronze.

BRAQUE LAMP

Hedron's bigger brother throws symmetry to the wind and draws a stronger connection to the work of the 20th Century Cubist painter Georges Braque, with its interlocking planes of irregular geometric shapes, which form its commanding stature. This monolithic creation can be ordered as a mirroring pair or unaccompanied and is available in our two new rustic finishes – Russet and Sepia.
